PSYCHIC MEDIUM | TRANCE CHANNEL

## ABOUT GIA PRISM

Gia Prism is a psychic medium, a trance channel, and an InterDimensional Artist, collaborating with celebrities and visionaries beyond the veil to channel their cosmic wisdom and transformational energies into living works of art.

As a psychic medium and channeler, Gia is able to connect with beings in the spirit world and relay their words and wisdom. As a trance medium, Gia merges with the energies of these spirits, capturing their essence to project their voices and mannerisms, radiating their unique energetic imprint, and becoming the living embodiment of their human expression.

Gia was born with a number of psychic gifts and has been a professional in the field since 2015, when she began a private practice as a healer and intuitive guide for clients around the world. By helping people heal themselves and master their spiritual connections, they can learn to become InterDimensional, seeding within their art and their lives unique codes of awakening, healing, and transformation with the power to change the world.
